

NVA-04S

The NVA-04S is a *DE-AIRING* pugmill that features newly designed *TWIN AUGERS* and a forceful direct gear driven motor for remarkable extruding that produces air-free clay and increases clay workability. It features an all stainless-steel interior for use with porcelain and other light colored clay bodies. The high quality wedging and extruding capacity makes this compact pugmill one of the most efficient and competitive on the market.

Features

- › Direct gear driven motor provides maximum mechanical force for blending requiring minimum operator effort
- › Twin cast stainless steel mixing augers blend and extrude up to 200 kg per hour
- › Dual safety system; limit switch automatically cuts power to pugmill when augers are exposed. Stop button allows for immediate operator control
- › Includes a clay cut-off wire, clay receiving table, and mounted on locking wheels
- › Air vacuum pump system (oil-free)

Motor

Screw motor: Single phase, 230 V 400 w Pump motor:
Single phase, 230 V, 250 W

Extruding Capacity

200 kg / hour

Nozzle Diameter

90 mm

Dimensions

920 (1320 including clay roller stand) x 420 x 750 mm

Weight

Main body 140 kg, Clay roller stand 5 kg

Easy Access and Maintenance

Twin Augers

Stainless Steel Dies Available

Coil Die

Assorted Die

Tile Die
