

Thickness Indicator

TRS MINI SLAB ROLLER

NIDEC-SHIMPO's Mini Slab Roller features a **TWO-ROLLER** system with hand-lever and thickness indicator that provide synchronized fine adjustment that can produce a thickness 3-22 mm. Its lightweight (14 kg), compact design makes it easily **PORTABLE**; and yet its 370 x 500 mm table makes it a permanent addition to any studio or classroom.

Features

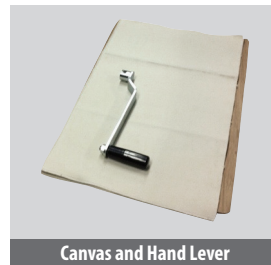

- › Locking roller levers provide synchronized fine adjustments that allow for precise control of slab thickness
- › Two-roller system evenly distributes pressure on slab to reduce warping
- › Thickness indicator provides synchronized fine adjustments that can produce a thickness of 3-22 mm
- › Compact and lightweight design makes it easily portable
